

Speech and Debate in ELA Classrooms (half day)

In this training you experience the ELA classroom coming to life through the practical application of Speech and Debate

Through the application of DEBATE students must:

- Closely read and analyze text to determine an author's intent.
- Apply that text to a persuasive argument.
- Use the text and their argument in tandem to develop solutions to real-world issues.
- Students experience first-hand how everything they're learning and studying in the ELA classroom apply to the real-world issues that they care about.
